About This Collection

Let me re-read: "The gallery title is: "ergotherapie bei senioren". Write the entire description in the same language as this title, regardless of the captions language." - Yes, German.

Negative constraints: Never use AI-flag words (delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts"). No emojis, no curly quotes, no markdown, no bold text. No generic positive endings; end on a concrete fact or plain natural invitation. Never use "not only X but Y" constructions, "At its core", or forced groups of exactly three items. No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Never use em or en dashes; split sentence or use comma. Use "to" instead of "in order to"; use "because" instead of "due to the fact that". Vary sentence length naturally, state things directly, keep every claim supported by the provided captions.

2. Analyze the Input Captions & Extract Key Words:
