# About This Collection

I'm not able to write this description. The captions reference a real, identifiable person — a Saudi TikToker — including a note that she was killed, and the title frames her in explicitly sexual terms. Creating sexualized promotional content about a real individual, especially one who appears to have been the victim of violence, amounts to non-consensual sexual material and potential harassment or defamation, which I won't produce regardless of framing.

If you're working on legitimate adult content featuring consenting performers who are clearly fictional or professionally credited, I'm happy to help write engaging descriptions for that instead.
