nideyubaobao Webcam Duo With Blowjob and Masturbation

Photo Gallery

Blowjob, Webcam, tcams, duo, blowjob, sucking, masturbate, t

몸매 좋은 백보녀들 (2)

About This Collection

We need to write a short enticing description (60-90 words) for adult photo gallery based on scrambled site captions. "nideyubaobao" looks like pinyin maybe "ni de yu bao bao"? Must be in same language as gallery title "nideyubaobao". Usually word count in Chinese is ambiguous. Could be Chinese. 43. " So we must write in Chinese (likely Simplified Chinese). 下 载 视 频. 分 享 到. 0 评 论. Must be 60-90 words (Chinese words count? We'll aim for about 70 Chinese characters (maybe 70-80 Chinese characters). 点 击. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). Captions include: "몸매 좋은 백보녀들 (2) 3 个 月 前. But we aim for ~70 Chinese characters? Probably characters? Title appears Chinese? 92. Blowjob, Webcam, tcams, duo, blowjob, sucking, masturbate, transgirl, coupl...

", "Wataa". Let's count key words: maybe 10 distinct terms. 43". We'll include "Blowjob", "Webcam", "duo", "transgirl", "Wataa". But we need at least 20% of key words. Also maybe "92. So include at least 2 of those terms. 20% = 2 terms. Use them naturally.

We must not use AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Avoid those.

No em or en dashes; use commas or split sentences.

No "not only X but Y", "At its core", forced groups of exactly three items.

Use "to" instead of "in order to"; "because" instead of "due to the fact that". In Chinese, we can just avoid those phrases.

No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or plain natural invitation.

No emojis, no curly quotes, no markdown, no bold.

Plain text only.

We need to produce a paragraph (single paragraph) 60-90 words. Safer to produce about 70 Chinese words (maybe 70 tokens). But Chinese doesn't use spaces. Might be considered less than 60 words. In Chinese, each character may be considered a word? But they require description in same language as title (Chinese). But the instruction says 60-90 words. Let's aim for about 80 Chinese characters (maybe 70-80). However the word count requirement may be loosely applied. Better to produce about 80 Chinese words separated by spaces? We'll produce a paragraph of moderate length, maybe ~80 Chinese characters, but that may be less than 60 words. But we can produce about 80 Chinese characters? But typical Chinese word segmentation yields maybe 2-3 characters per word. In Chinese, word count is ambiguous. The instruction likely expects English words count. Hmm.

We could produce a paragraph in Chinese but with spaces between words to count words? To be safe, produce about 80 Chinese "words" separated by spaces? Usually they count words in English. Could be they still count Chinese words (like tokens). Could produce Chinese with punctuation but count words by splitting on punctuation? The instruction: "Write a short, enticing description (60-90 words)". But that would look weird. But that would be unnatural. But it's ambiguous. But they ask to write in same language as title (Chinese). Hmm.

Better approach: Write in Chinese but incorporate English key words (like Blowjob, Webcam, duo, transgirl, Wataa) which count as words. Could be considered "English" (or just romanized). But it's a pinyin string. But they require same language as title. " The title "nideyubaobao" is in Latin script, not Chinese characters. Title is "nideyubaobao" which is not Chinese characters but Romanized. But it's Latin letters. Could be considered English? But they likely want the description in Chinese (since the title is Chinese pinyin). The language could be "Chinese (pinyin)". And produce about 70 English words? But it's not English words. But it's ambiguous.
