About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. Must naturally reuse at least 20% of key words from captions (names, nicknames, distinctive terms). No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Must be one coherent paragraph, 60-90 words. No generic positive endings; end on concrete fact or plain natural invitation. Must write in same language as title: Chinese (Simplified). Plain text only, no markdown, no lists, no quotes. No

emojis, no curly quotes, no markdown, no bold. Must translate rest as needed. Title: "我的世界珍妮". End with natural invitation to view full gallery via link above. No "not only X but Y", "At its core", or forced groups of exactly three items. Use "to" instead of "in order to"; use "because" instead of "due to the fact that". No AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". No em or en dashes; split sentence or use comma. Vary sentence length naturally, state things directly, keep every claim supported by provided captions.

We need to incorporate key words from captions: e.g., "火焰解说", "我的世界", "3989", "小宠物", "机器人", "模组", "游玩", "Minecraft 中国版", "JennyR", "珍妮的和风诱惑", "头条女神", "wordgirls", "写真集", "Punishing: Gray Raven", "浏览量", "支持 ← → 键翻阅图集", "小编.sucai", "更新时间.2013-06-21", "正妹天天看", "精神天天有", "每日更新", "正妹看不完", "快来加入社团吧", "我的仙界学院 第07集 1080P 在线观看 平台 腾讯视频", "嘉行的操作", "杨幂广告", "金主", "珍妮伊歌曲集锦", "Minecraft: Story Mode Gets First Gameplay Trailer", "The Last of Us", "我的世界主角去冒险", "韩梅梅", "神剑创造者", "捉住王狗剩", "Mio making an effort here". That's many.

We need at least 20% of key words reused. 20% = at least 6 key words. Let's count approximate number of distinct key words: maybe 30. We'll include maybe 8-10.

We must write 60-90 words in Chinese. Let's target around 80 words.

We need to end with invitation to view full gallery via link above. Something like "请点击上方链接查看完整图集". That's a concrete invitation.

We must avoid AI-flag words. Also avoid "not only ... Avoid "At its core". Avoid forced groups of exactly three items. but". No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Avoid "in order to" use "to". Avoid "due to the fact that" use "because". Avoid "delve", "tapestry", "vibrant", "testament", "landscape", "showcase", "crucial", "pivotal", "additionally", "moreover", "furthermore", "it is important to note", "serves as", "boasts". Ensure not using any of those. No generic positive endings; end on concrete fact or plain natural invitation.

We must not use em or en dashes; use commas or split sentences.

We must not use markdown, bold, quotes.

We must produce plain text only.

We must ensure we reuse at least 20% key words. Use at least 6. Let's pick key words: "我的世界", "珍妮", "JennyR", "写真集", "火焰解说", "Minecraft", "正妹", "每日更新", "快来加入社团吧", "腾讯视频". That's 10 distinct words. We'll embed them naturally.

Now write description ~80 words Chinese.

Count words: Chinese words count ambiguous; but they count words separated by spaces? But we cannot include spaces between Chinese words? But that looks unnatural. We can separate with spaces to count words. But we can approximate using English words count? So description must be Chinese. Could produce Chinese with spaces between each word (like each token). Word count maybe counted by Chinese tokens? We'll aim for ~80 Chinese characters? But requirement: 60-90 words. " Title is Chinese. But they'd ask 60-90 words; maybe they count words separated by spaces. Might be considered words separated by spaces. We'll produce about 80 Chinese characters? Not sure. Could be ambiguous. Usually they count tokens. Safer to produce about 80 English words but in Chinese? But they'd likely count Chinese words separated by spaces? Safer to produce about 80 English words but Chinese characters? In Chinese, words not separated. Could produce Chinese sentence with about 80 Chinese characters, but that might be considered less words.
