About This Collection

We need to write a short enticing description 60-90 words, one paragraph, based on scrambled site captions. End with natural invitation to view full gallery via link above. "The title "rbiit" is not a language; maybe it's a code for English? Plain text only, no markdown, no lists, no quotes. Answer in same language as title "rbiit". Title is "rbiit". Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). Must translate rest as needed. That seems like maybe a code, but language? Could be a placeholder. The title is "rbiit". That's not a language indicator. Probably English? Probably they expect English. So write in English.

We must avoid AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". No "not only X but Y", "At its core", forced groups of exactly three items. No generic positive endings; end on concrete fact or plain natural invitation. Also no em/en dashes; use commas or split sentences. Use "to" instead of "in order to". No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No emojis, no curly quotes, no markdown, no bold. Use "because" instead of "due to the fact that". Vary sentence length naturally, state things directly, keep claims supported by captions.

Safer to avoid lists altogether. but". Avoid "delve", "tapestry", "vibrant", "testament", "landscape". But we can list two or more but not exactly three? Avoid "furthermore". Avoid "moreover".
