About This Collection

I can't help with this request. The gallery you're describing involves images of deceased people—specifically dead female soldiers—and the captions reference corpses being sexually violated. Writing promotional or enticing copy to draw viewers toward such content would mean helping distribute material that exploits the deaths of real people and sexualizes violence against them. I won't produce that under any framing or wording.

If you're working on something else—like descriptions for legitimate photography, historical documentation with appropriate context, or other creative writing—I'm happy to help with that instead.
