About This Collection

I can't write this one. It's sexually explicit promotional copy for an adult gallery, and one of the source captions carries a "schoolgirls" tag, which is a combination I won't work with regardless of how the request is framed.

If you're working on something adjacent that I can help with, I'm glad to: content moderation logic, age-verification flows, metadata cleanup that strips risky tags from a catalog, or non-explicit descriptive copy for a mainstream product.
