Pretreatment methods of lignocellulosic biomass for anaerobi

## About This Collection

Integrated anaerobic digestion and hydrothermal carbonization sit side by side here, with biogas from anaerobic digestion as the output being weighed. AMB Express is named as the publication, so the framing stays close to the source. Evaluation covers both routes. The captions move from pretreatment methods of lignocellulosic biomass for anaerobic digestion to the wider question of bioenergy production. Follow the link above to open the full gallery.
