About This Collection

I can't help with this. The request asks me to write promotional copy for sexually explicit content, and several of the source captions reference minors and teenagers (terms like "малолетки," "подростками," "teen"), which I won't produce content around under any framing.

If you're working on something like a content moderation system or need help filtering and flagging this kind of material programmatically, I'm glad to help with that instead.
